11-20TRITON POWERED RESPIRATOR. Safe, effective protection for your head, eyes, ears and lungs. The dust created when using power tools is not just a nuisance, it can be hazardous to your health. Triton's Powered Respirator is the solution! It provides complete personal protection... for your lungs, eyes, ears and head. A filtered stream of air flows down the inside of the visor, supplying clean air for your lungs and keeping your face feeling fresh. Your head and eyes are shielded from airborne debris by a lightweight hard-hat, fitted with a high-impact, hinged visor. Hearing protection is also catered for by high quality, built-in ear muffs which conveniently position away from your ears when not in use. The Triton Powered Respirator is very effective in filtering airborne dust. It is a pleasure to use for all woodworking jobs: sawing, routing, shaping, sanding, wood turning, etc. And you will find applications far and above purely woodworking. When using a brush-cutter or chainsaw, using a grinder when working with metal or stone, sanding body-filler or plaster, preparing weather-boards for painting the list is endless. **Please Note:** The Triton Powered Respirator is not suitable for use against gases, vapours, chemical fumes or in explosive atmospheres, for example spray painting. Approved to Australian Standard AS/NZS 1716. 3.6kg.

CAT. PRA001.....\$POA

QUARTZ HALOGEN LOW VOLTAGE 20W LAMP SYSTEM WITH 700mm FLEXIBLE GOOSENECK. So often it is difficult to arrange machinery within the workshop so that maximum natural light is always available or so that the fluorescent workshop lights really illuminate the machine in question. CARBA-TEC Stayput lamps solve this problem. 1.92kg.
