DUST EXTRACTION

Festool Dust Extractors have the most advanced technology in the market.

Cleaning accessories included

With the CT 15L HEPA, the crevice and upholstery nozzle cleaning accessories come included in the standard package and can be stowed in the dust extractor.

Touch control

Intuitive touch control panel instead of knobs and dials – perfectly easy to operate, even with gloves and in dirty environments.

Filter replacement from outside

Quick, easy and tool-free.

CT 15L HEPA CLASS DUST EXTRACTOR

The Festool Dust Extractor Range

Advanced electronics for dust monitoring and flow sensors for full protection.

Flat filter design allows the filter bag to unfold easily and expand to use almost 100% of its capacity.

Self clean fleece and plastic disposable bags for maximum performance, safety and compliance. No more paper bags.

Everything has its place

The large internal hose holder and external cable wrap makes storing the smooth suction hose and cable safe and clean for transportation.

Bluetooth® technology

Can be retrofitted with the Bluetooth® module to allow the extractor to be controlled via the remote control on the suction hose and started automatically when a Festool cordless tool with Bluetooth® battery pack is switched on.

*Module sold separately

Fully automatic filter cleaning

No more clogged filters - the automatic AUTOCLEAN (AC) main filter cleaning function keeps the filter free of material, ensuring constantly high suction power for large volumes of fine dust.
