# NOVA TOOL REST SYSTEMS

Introducing the **NEW** Nova Tool Rest System, a flexible system which allows you to mix and match your Toolrest Posts and Supports to create the perfect Toolrest for your needs.

## TOOL REST POSTS

Choose the tool rest post height

### NOVA 5/8" X 3-1/4" MACHINED STEEL TOOL REST POST

This post fits most Mini Lathe Tool Supports. This threaded post enables you to fasten or unfasten different NOVA Toolrest bars as needed. The 5/8" shaft is 3-1/4"/196mm long and can fit most Mini Lathe Toolside shafts. Requires one of the NOVA Tool Rest Bars (additional purchase).

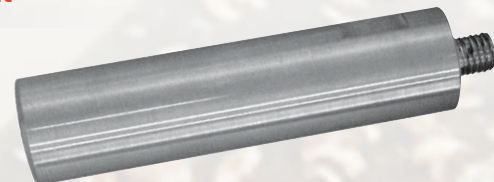

TK-9024 **\$14**

### NOVA 1" X 5" MACHINED STEEL TOOL REST POST

This threaded rest post enables you to fasten and unfasten different NOVA Toolrest bars as needed. The 1"/25.4mm shaft is 5"/127mm long, can fit to most Wood Lathe Toolside shafts, including all NOVA lathes (excluding Mini Lathes).

TK-9025 **\$16**

### NOVA 1" X 8" MACHINED STEEL TOOL REST POST

Fits most Woodlathe Toolslides, this threaded post enables you to fasten or unfasten different NOVA Toolrest bars as needed. The 1"/25.4mm shaft with 8"/203mm length, can fit to most Wood Lathe Toolside shafts, including all NOVA lathes (excluding Mini Lathes).

TK-9031 **\$20**

## TOOL REST BARS

Choose the tool rest size

These threaded Tool Rest Bars enable you to use different NOVA Tool Rest Posts as needed. Each one is made from cast steel with a stainless steel top rod for durability and smooth operation. The lengths are perfect for most Mini Lathes or when you want more precise tool control for smaller work on your larger lathe. Requires one of NOVA Tools Rest Posts (additional purchase).

### NOVA 12" TOOL REST BAR

Length: 12"/304mm

TK-9028 **\$52**

### NOVA 6" TOOL REST BAR

Length: 6"/152mm

TK-9027 **\$40**

### NOVA 4" TOOL REST BAR

Length: 4"/101mm

TK-9026 **\$32**
