

Will My Saw Fit the Bora® NGX Saw Plate™?

Check these 4 things to ensure compatibility:

- 1** Blade guard to edge of saw plate - width must be between **2 ½ in.** and **5 ¼ in.**
- 2** Front of saw plate to back of blade guard - max length **11 ¾ in.** (no min. restrictions)

- 3** Front lip on saw plate - ideal width **> ¾ in.** (space is needed for clamps to lock in place)
- 4** Open space on motor side of saw plate for two locking clamps
